SAMIUM BASHIR BADHAN

Frontend Developer | React Developer

Dhaka, Bangladesh | samium.vercel.app | github.com/SamiumBashir | linkedin.com/in/samium-bashir-badhan | samiumbashirbosunia@gmail.com

PROFESSIONAL SUMMARY

Frontend Developer and CSIT student specializing in building responsive, scalable, and production-ready web applications with **React, Next.js, TypeScript, JavaScript,** and **Tailwind CSS.**

Experienced in bridging sophisticated UI/UX designs with scalable production code through disciplined component architecture, type-safe data handling, responsive layout engineering, REST API integration, and performance optimization. Experienced in developing e-commerce platforms, institutional management systems, clinical applications, and productivity tools.

Strong focus on reusable component architecture, UI/UX fidelity, state and data control, accessibility, Core Web Vitals, and production deployment.

TECHNICAL SKILLS

Languages:	JavaScript (ES6+), TypeScript, HTML5, CSS3
Frontend Development:	React 19, React 18, Next.js 15, Tailwind CSS, Bootstrap 5, DaisyUI, React Router, Vite, Framer Motion
State & Data:	State Management, REST APIs, Asynchronous Data Fetching, API Integration, Caching, Form Validation, Error Handling, Type Safety
Backend & Database:	Node.js, Express.js, MongoDB, MongoDB Atlas, Mongoose, Redis
Authentication & Validation:	JWT Authentication, Jose JWT, BcryptJS, Zod
Performance Engineering:	Core Web Vitals, Lighthouse Optimization, Lazy Loading, Debounced Inputs, Memoization, Optimized Rendering, Asset Optimization
Development & Deployment:	Git, GitHub, Docker, Docker Compose, Nginx, Vercel, Netlify, CI/CD

PROFESSIONAL EXPERIENCE

Bangladesh Software Solution

Dhaka, Bangladesh | Feb 2026 – Present

Frontend Developer

- Develop responsive and user-friendly web interfaces using **HTML5, CSS3, JavaScript, React, Tailwind CSS**, and modern practices.
- Convert UI/UX requirements and Figma designs into clean, responsive, maintainable frontend implementations and reusable components.
- Implement interactive client-side functionality using JavaScript & React, integrating backend REST APIs for dynamic data synchronization.
- Troubleshoot and resolve UI, responsiveness, and rendering issues across desktop, tablet, and mobile devices.
- Utilize **Git and GitHub** for version control, collaborative team development, and optimize interfaces for performance and usability.

FEATURED PROJECTS

PhulKini — E-commerce Platform

Live: phulkini.vercel.app ↗

A full-stack floral e-commerce platform with product browsing, cart, checkout, payment integration, and user authentication. Features include MongoDB Atlas database, Redis caching, SSLCommerz payment, Cloudinary image management, and responsive UI built with Next.js and Tailwind CSS.

Tech Stack: Next.js 15, React 19, Tailwind CSS, MongoDB Atlas, Mongoose, Redis, Jose JWT, BcryptJS, Zod, SSLCommerz, Cloudinary, Lucide Icons, Canvas Confetti

CMHS — Institutional Management Portal

Live: cmhs.vercel.app ↗

A full-stack institutional management portal with role-based dashboards, user management, and academic workflows. Built with React, Node.js, MongoDB, Redis, and deployed using Docker, Nginx reverse proxy, and JWT authentication.

Tech Stack: React 19, Vite, React Router, Tailwind CSS, Framer Motion, Node.js, Express.js, MongoDB, Redis, JWT Auth, Docker, Docker Compose, Nginx

DocPresc — Clinical Management Application

Live: docpresc.vercel.app ↗

A clinical management and prescription system with patient management, prescription generation, document export, and QR code features. Integrated jsPDF, html2canvas for PDF generation and Zod for validation.

Tech Stack: React 18, TypeScript, Vite, Tailwind CSS, Lucide Icons, Node.js, Express.js, MongoDB, Mongoose, Zod, JWT Auth, jsPDF, html2canvas, QR Code

Chrome Extension — Web Productivity Utility

Code: github.com/SamiumBashir/chrome_extension ↗

A lightweight and efficient browser productivity extension built with Manifest V3. Features popup controls, background service workers, asynchronous local storage handling, DOM content scripts, and streamlined browser workflows.

Tech Stack: JavaScript (ES6+), Chrome Extension APIs, Manifest V3, HTML5, CSS3, Background Scripts, Storage API

EDUCATION

Bachelor's Degree in Computer Science & Information Technology

Royal University of Dhaka, Dhaka, Bangladesh

Relevant Areas: Data Structures & Algorithms, JavaScript Programming, Web Development, Software Engineering, TypeScript, Frontend Architecture, Web Accessibility.

CORE STRENGTHS & LANGUAGES

Core Strengths:	Responsive Web Development, Clean & Maintainable Code, Pixel-Perfect UI Implementation, Problem Solving, Fast Learning & Adaptability, Team Collaboration, Strong Interest in eCommerce Development
Languages:	Bangla (Native), English (Professional Working Proficiency)
